It is a custom in Britain and in most European countries to celebrate a person's day. Members of the family and close friends are supposed to be present at the party. If they can't come they may send a gift by post. At the birthday party, the person who gives birthday party opens all the gifts in front of all the people present and thanks them for the gifts.

The mother usually makes a birthday cake, or if she can't, she may order one from a cake-shop. A number of candles are placed on the top of the cake and will be lighted when the party starts. The number of candles is also the age of that person. After the light is out they all sing a song "Happy birthday to you...." Then they play some games or sing or dance together.

The ancient town of Hoi An lies on the river Thu Bon, more than 30 kms to the south of Da Nang. Occupied by early western traders, Hoi An was one of the major old time comercial ports of South Asia in the 16th century.

Hoi An is famous for old temples, pagodas, tiled roof houses and narrow streets. Tourists can visit the relics of Sa Huynh and Cham civilizations. They can also enjoy the beautiful scenery of the river Thu Bon, Cua Dai beach, etc . In recent years, Hoi An has become a very popular tourist destination in Viet Nam. Importantly, the committee of the World Heritages of UNESCO officially certified Hoi An as a World Heritage Site in 1999.

In summer, it is hot and there are many flowers in the fields and gardens. In autumn, there are many vegetables and much fruit. Everybody likes to eat fruit. In winter, it is cold and it often rains. Air pollution is a cause of ill-health in human beings. In a lot of countries there are laws limiting the amount of smoke which factories can produce. Although there isn't enough information on the effects of smoke in the atmosphere, doctors have proved that air pollution causes lung diseases.

The gases from the exhausts of cars have also increased air pollution in most cities. The lead in petrol produces a poisonous gas which often collects in busy streets surrounded by high buildings. Children who live in areas where there is a lot of lead in the atmosphere can't think as quickly as other children and are clumsy when they use their hands.

There are other long-term effects of pollution. If the gases in the atmosphere continue to increase, the earth's climate may become warmer. A lot of the ice near the Poles may melt and may cause serious floods.
